

What are cookies?

Cookies are small text files that are placed on your computer or device when you visit our websites.

Purpose of cookies

We use cookies to run contact forms and analytics statistics.

Types of Cookies

- 1) Session cookies - These types of cookies are temporarily stored on your computer or device during a browsing session and are deleted from your computer or device at the end of a browsing session.
- 2) Persistent cookies - These types of cookies are kept on your computer for a longer period. We don't use persistent cookies.

Managing cookies

The menu of most browsers will give you options of how to manage your cookies by adjusting or configuring your cookies settings. Typically the browser will give you the option to:

view your cookies

allow cookies

disable all or specific cookies

disable all cookies when you close your browser

block cookies

receive notifications when you receive a cookie

Please note that if you use your browser settings to block our cookies you may not be able to access some parts of our websites. If you set your browser options to delete all cookies, your browser preferences will be deleted when you close your browser.
